

Proceedings of the 21st Regular Meeting
of the Pacific Coast Ent. Soc.

The 21st regular quarterly meeting of the Pacific coast Ent. Society was held on the evening of Aug. 25th, 1906, at the residence of Miss Julia Wright, 2329 Pacific Ave. Alameda, Calif.

President Fuchs in the chair.

Minutes of the preceding meeting were read and approved.

The following members responded to roll call:-

Miss B. Chapman, Mr. J. C. Huguenin, Pres Fuchs, Mr L. E. Riclesacker, O. E. Brummer, Dr. E. C. Van Dyke, Percy Baumburger, Leon Munier, Miss Julia Wright, Dr. F. E. Blaisdell.

The following visitors were also present:-

Mrs Chas. Fuchs, Miss B. Brady, Mrs F. E. Blaisdell, Mrs A. G. Blaisdell, F. E. Blaisdell, Jr., Mrs J. C. Huguenin, Miss Bessie Wright, Miss Ethel Wright, Mr. G. A. Wright, Mrs G. A. Wright.

The Treasurer then read the following report:-

Mr. President:-

The following is the Treasurers report

for the two quarters just ended:-

Bal. in Treasury at last meeting	\$ 7.15
Expenses since last meeting	4.00
Bal. in Treasury	\$ 3.15

F. E. Blaisdell, Treasurer.

The annual election of officers then took place

with the following results, Chas. Fuchs for President; Y. E. Blaisdell for Sec. & Treasurer, and Leon Mummer for assistant Sec.

Dr. Van Dyke then read a letter from Mr X. Williams, who is absent with the Calif. Acad. of Sciences' Expedition to the Galapagos Islands. Mr. Williams reported fine success along all lines, among the many insects taken was an arboreal Ctenodactylus, a new record & without doubt a new species.

Dr. Van Dyke then reviewed the species of Necrophorus and Nebria. Stating that there were 4 species and two varieties of Necrophorus found about San Francisco.

Dr. Blaisdell reported that he had finished the analytical work on the Blaptini and that he was returning the borrowed material. He also reported & exhibited a new species of Troglocerus - type in the Nat. Mus. Collection. He stated that the genus would still be retained in the Blaptini.

Mr. Fuchs reported that collectors could now obtain insect boxes of Thiebaud Bros, (formerly of Waizman & Thiebaud) 2122-24 Lombard St. near Fillmore, San Francisco, and that the Bausch & Lomb Optical Co., were now located at 1629 Geary St, San Francisco, & that they had a stock of pins, etc., on hand.

Percy Baumbarger exhibited 2 boxes of Coleoptera.
Mr. Huguenin, Xylotrichus obliteratus ♂ ♂,
clerus sp., and Oberca 4 - Callosa.

Mr. Fuchs exhibited vials of insects taken
from the ruins of the Academy; the vials
were hermetically sealed by the melting of
the glass and the contained insects were
carbonized but retained their shape.

Dr. Van Dyke a box of Necrophorus &
one of Nebricæ.

Social discourse & refreshments
followed. Adjournment.

Note - Mr. Kuchacser reported the complete
loss of his collection.

F. E. Blissdell Sec.
